

# Lateral Partner Moves in London

---

 March – April 2018

**Welcome** to the latest round-up of lateral partner moves in the legal market from Edwards Gibson; where we look back at announced partner-level recruitment activity in London over the past two months and give you a ‘who’s moved where’ update.

In all, there was a total of 65 lateral partner moves announced in this round-up – 33% fewer than the same period last year and 14% fewer than the statistical average for the preceding five year period. This comes on the back of the 22% fall we reported in our last edition. Overall, in the first four months of 2018, the number of lateral partner moves in London is down 27% on 2017 – a drop only partially explained by the 2017 figures being artificially buoyed by the collapse of King & Wood Mallesons’ European verein.

**Of note in this edition:**

- ✦ A three partner move, including a former Head of Real Estate, from DLA Piper, linked to a much larger 50 lawyer (\$100 million revenue) team move in the USA, launches a real estate offering by **McDermott Will & Emery** in London.
- ✦ No fewer than five partner hires – nearly 8% of all recorded moves - were in White Collar Crime with two firms: **Macfarlanes**, and US firm **Greenberg Traurig**, launching their European offerings with significant named partners.
- ✦ 20% of all recorded moves were laterals moving for partnership - with **Kirkland & Ellis** making three such acquisitions. Elsewhere, two partners moved from senior in-house roles into partnership.

**Top partner recruiters in London March-April 2018:**

✦ Baker McKenzie	3
✦ Druces	3
✦ Kirkland & Ellis	3
✦ McDermott Will & Emery	3

Whilst the number of moves in 2018 is sharply down on the (admittedly record number) we saw last year, it is too soon to determine if this is part of a wider slowdown. Nevertheless, it is interesting to note that, so established has the trend for lateral hiring in London become, that even when hitherto ultra-conservative lateral hirers such as **Allen & Overy** and **Macfarlanes** nab two partners apiece, the lack of novelty means that it no longer invokes quite the same comment it once would.
