

# Lateral Partner Moves in London

---

 March - April 2021  
Issue no. 62

Welcome to the 62<sup>nd</sup> edition of lateral partner moves in the legal market from Edwards Gibson; where we look back at announced partner-level recruitment activity in London over the past two months and give you a ‘who’s moved where’ update.

There are a total of 83 lateral partner moves in this edition – a 54% increase on last year and 11% up on the statistical average (75) for the same period over the past 5 years. The objectively high number of moves was buoyed by seven firms hiring three or more laterals a-piece. The largest single move was **Taylor Wessing’s** snatching of a corporate trio from **Stephenson Harwood**. Although **Goodwin Procter** also took three laterals from **Kirkland & Ellis** (two in tax and one in finance), it is probably unlikely that all three were part of a single co-ordinated team move.

#### Top partner recruiters in London March – April 2021

✓ Goodwin Procter	4
✓ JMW Solicitors	4
✓ K&L Gates	4
✓ Shearman & Sterling	4
✓ Simmons & Simmons	3
✓ Taylor Wessing	3
✓ White & Case	3

After commercial disputes, which constituted a fifth of all hires, real estate made up the next highest contingent of laterals (12%). In view of the sharp GDP reduction in 2020, and the Covid-induced collapse of the commercial property office investment market, the high proportion of real estate moves is perhaps surprising in a sector traditionally so closely tied to the real economy. The figures belie a complex unfolding narrative; many real estate laterals represent ejected émigrés, pressured to leave their former homes, arriving at new outfits - sometimes after months of searching. Others represent bold bets by firms opportunistically looking to snap-up top talent by brandishing their real estate credentials to partners whose own firms’ post-Covid commitment to the sector has often been ambiguous.

#### Also of note in this edition

- ✓ 5 firms hired partners from in-house
- ✓ 22% of all hires were non-partners moving into partnership
- ✓ 27% of the total moves we recorded were female
